Six Secrets Nature Thrives by

- ◆ Why should we pay more attention to the nature?
- ◆ Why should we love, care about and protect nature?
- ◆ Why is nature important to you?

E. G. White, Education, pp. 99-100

- ◆ Nature testifies of God. . . The same power that upholds nature, is working also in man. . . The unity of man with nature and with God . . . nature presents an unfailing source of instruction and delight.
- ◆ The unseen is illustrated by the seen. . . be placed where this wonderful lesson book shall be open before him.

Personal Example 1

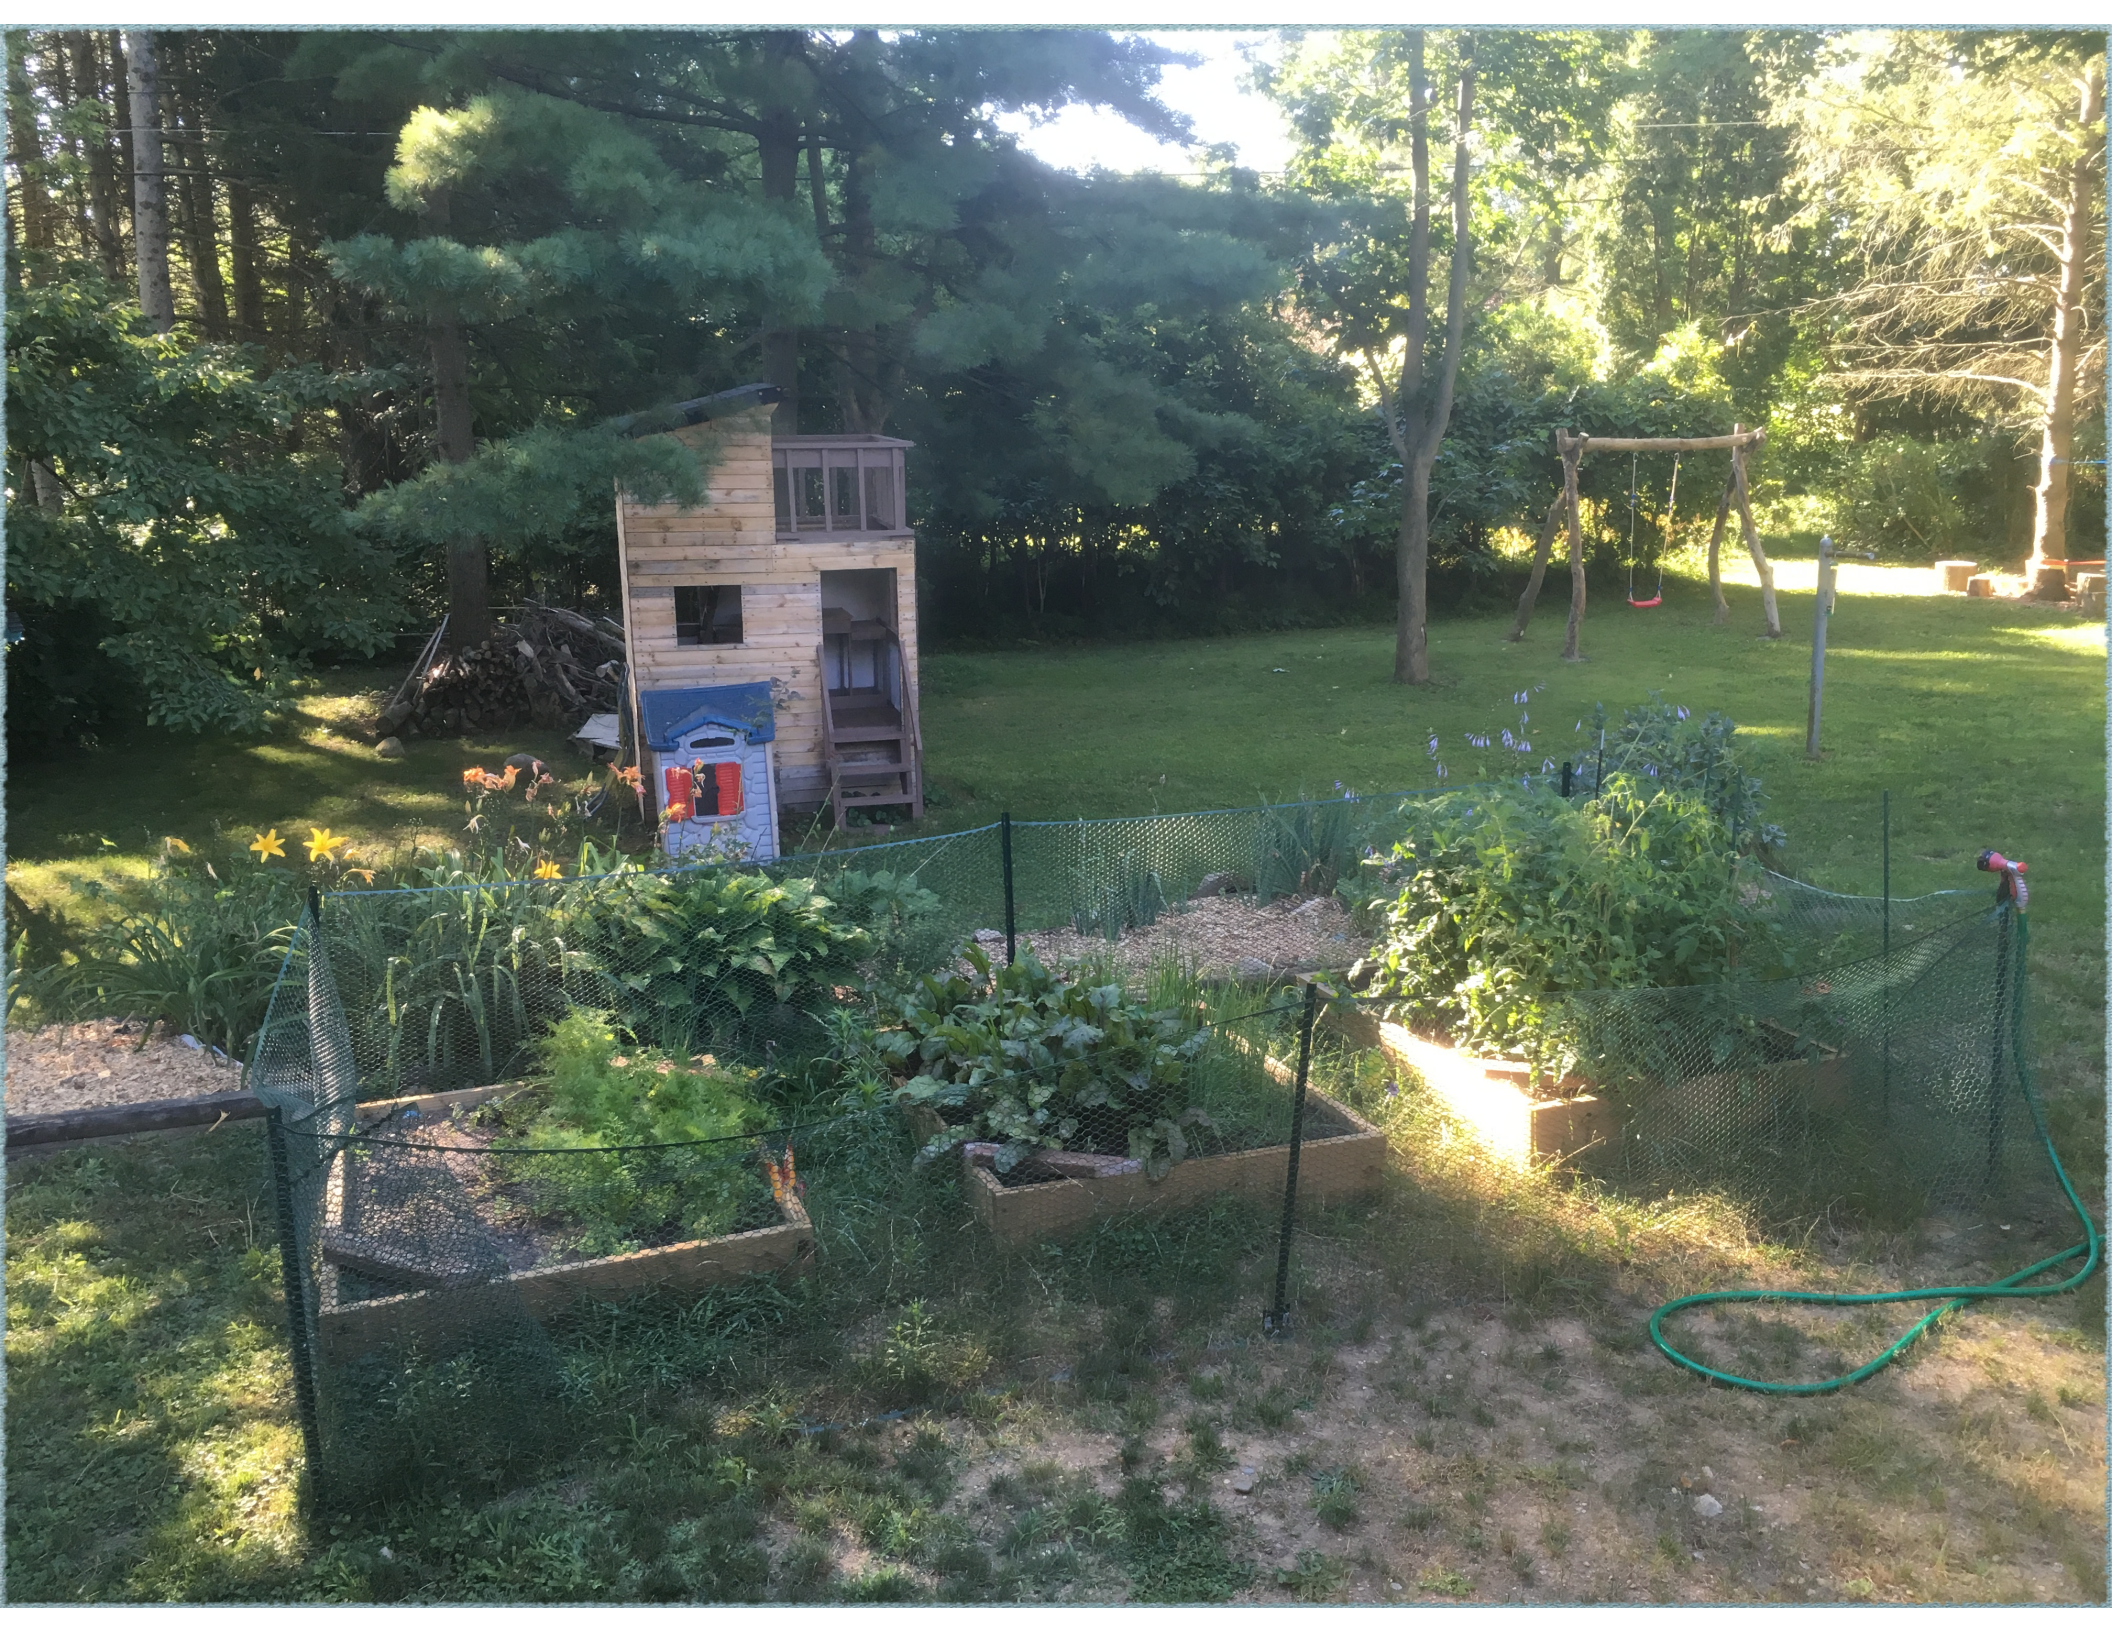

E. G. White, Education, p. 112

- ◆ The constant contact with the mystery of life and the loveliness of nature, as well as the tenderness called forth in ministering to these beautiful objects of God's creation, tends to quicken the mind and refine and elevate the character; and the lessons taught prepare the worker to deal more successfully with other minds.

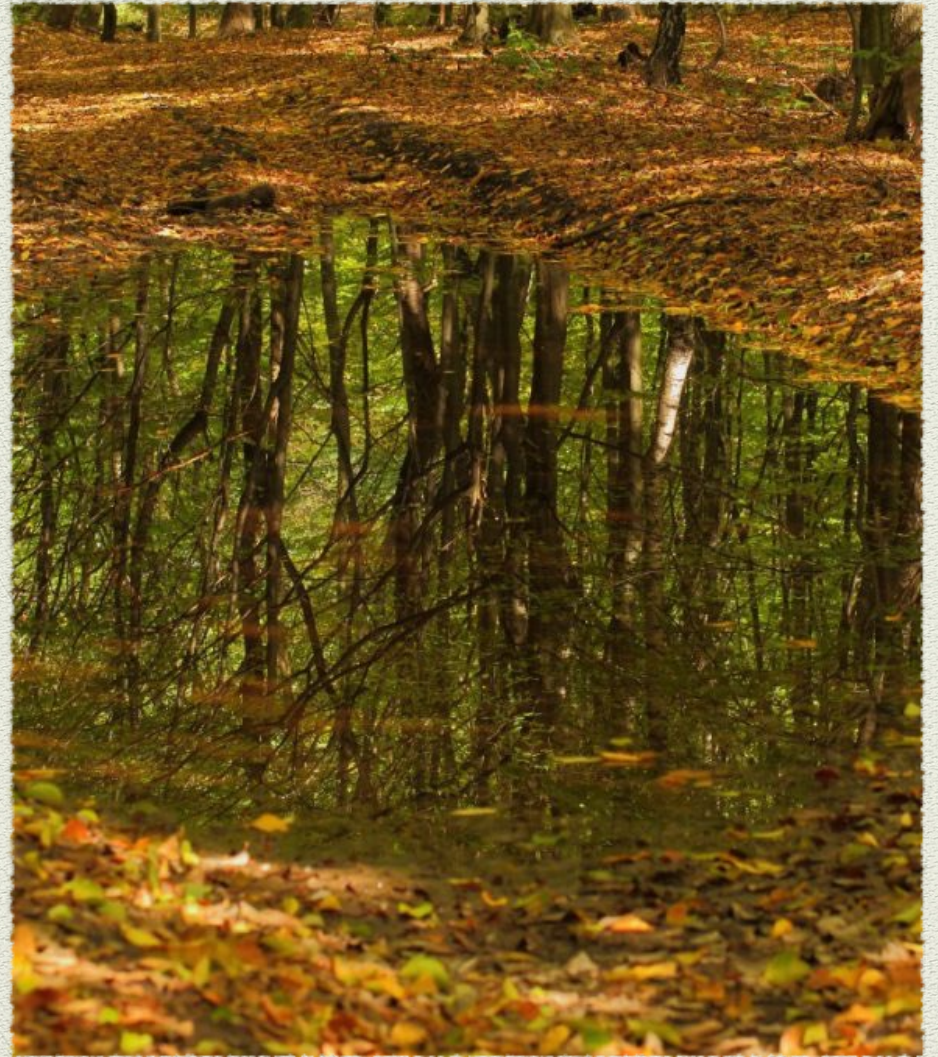

Secret 1: Interdependence

- ◆ Interdependence is the mutual reliance between two or more groups.

Interdependence

Organic/Biotic/Growing

Inter- dependence

1 Cor 12:12-27

What can I learn from this law in nature?

How does this principle enhances my life, my family, my church, my community?

How can I live in harmony with nature in view of this principle?

Secret 2: Symbiosis

- ◆ Symbiosis is any type of a close and long-term biological interaction between two different biological organisms. . . “the living together of unlike organisms”

Symbiosis

Organic/Biotic/Growing

Symbiosis

1 Cor 12:28-31

What can I learn from this law in nature?

How does this principle enhances my life, my family, my church, my community?

How can I live in harmony with nature in view of this principle?

Secret 3: Multiplication

- ◆ Reproduction is the biological process by which new individual organisms are produced from their "parents".

I started a family tree too,
but I gave it up fairly quickly:
Way too many relatives...

Multiplication

Organic/Biotic/Growing

Multiplication

Matt 25:14-30

What can I learn from this law in nature?

How does this principle enhances my life, my family, my church, my community?

How can I live in harmony with nature in view of this principle?

Secret 4: Energy Transfer

- ◆ Energy transfer is the process by which energy is relocated from one system to another, for example, through the transfer of heat, work or mass transfer.

Energy Transfer

Organic/Biotic/Growing

Energy Transfer

Phil 1-4

What can I learn from this law in nature?

How does this principle enhances my life, my family, my church, my community?

How can I live in harmony with nature in view of this principle?

Secret 5: Fruitfulness

- ◆ producing a good result :
very productive

Fruitfulness

Organic/Biotic/Growing

Fruitfulness

John 15:1-8

What can I learn from this law in nature?

How does this principle enhances my life, my family, my church, my community?

How can I live in harmony with nature in view of this principle?

Secret 6: Sustainability

- ◆ Sustainability is the capacity to endure. In ecology the word describes how biological systems remain diverse and productive over time.

Sustainability

Organic/Biotic/Growing

Sustainability

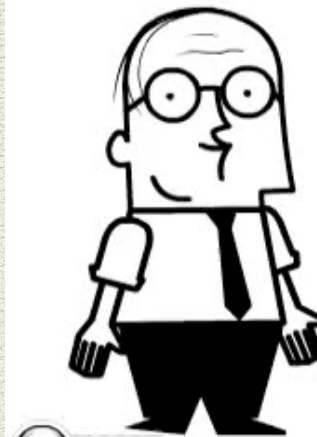

Luke 14:26-35

What can I learn from this law in nature?

How does this principle enhances my life, my family, my church, my community?

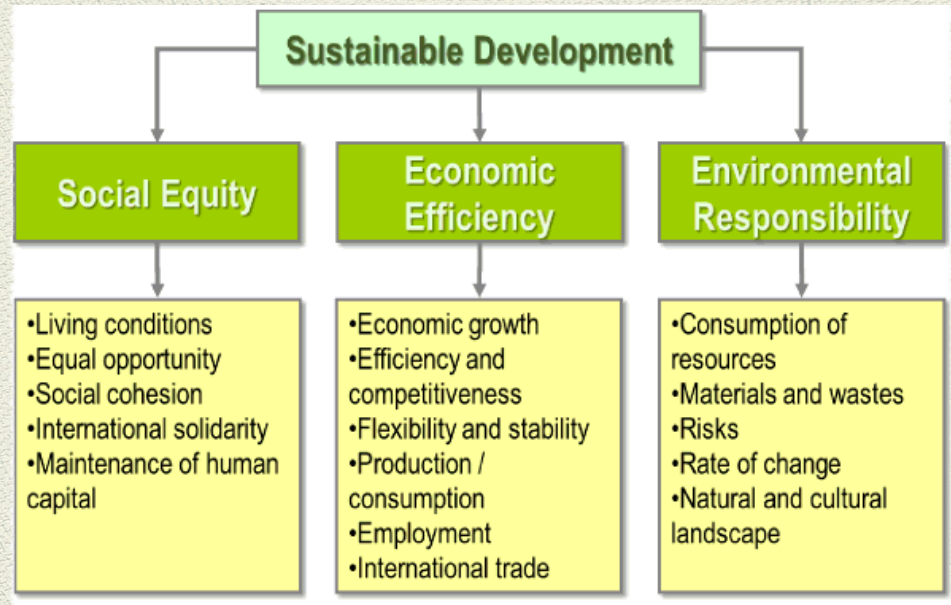

How can I live in harmony with nature in view of this principle?

GIMME
THE SHORT VERSION

www.iglooanimations.com

Nature seems the only true sustainable example

Organic Living

- ◆ Seek to live in harmony with God and his creation - i.e. exercise faith
- ◆ Accept things you can't change and work hard on things you can change
- ◆ Cherish the positive energy of God's love and light

All by itself growth Living organically
