

## The Critical Nature of Innovation in Education Today

1. Brief overview of Link Learning - Berrien Spring's Partnership Program for District Alternative Education Options
2. Where we began - Strategic Data collection and Use - Creation of the Pulse tool
3. Creation of Staff and School Level Dashboards
4. Development of Quality Assurance team
5. Incorporation of Data into Professional Development and Training
6. Creation of the centralized communications system and communications rubric
7. Development of a PBIS/MTSS system for virtual learners
8. Splitting of roles - Academic vs Behavioral
9. Creation of comparable reports, setting goals and strategies for improvement
10. Incorporating metrics into staff evaluations to close the loop
