Early College Myths & Tips for Academies
Myth or reality?

Taking college classes during high school is beneficial:

• Academic achievement – GPA
• Degree completion – undergrad associate or bachelors
• Time to completing studies – maturation?
• Reduced cost of higher education
How much is enough?

- 5 classes benefit college GPA
- Diminishing returns on early college
Less is more?

• Explore careers, expand school options, open doors K-16
• Adventist philosophy of education – balance, fully engaging
• 5 classes in Junior & Senior years – never the full college experience

• “Access without preparation is not opportunity. If students are not prepared academically to do college level work, it can backfire.”
  Texas HED Coordinating Board 15-Year Study
Admission

- Readiness over GPA
  - responsible, self-motivated, time manager
- Balanced load
  - choose what to replace, cannot just add college
- Test earlier
  - study for best PSAT score in Gr 10
  - SAT/ACT Gr 11 for better college admissions & dual enrollment prerequisites
Payment Models

Each institution offers variations

• Parents pay college directly
• Parents pay school full amount
• Parents pay reduced amount, school partnering – no withdrawals
• School or state pays full amount – no withdrawals
