Your nightstand holds two items: a cell phone and a Bible. Whichever "whistles" at you first gets attention.

Does God whistle?

Our lives often rely on the promptings of the Holy Spirit and tactics of self-discipline to move our spirituality forward.

The word knock in the Greek of Revelation 3:20 implies a persistent knocking. Imagine your phone ringing off the hook. That idea shouldn't exhaust you, knowing Whom the call is from. God has class in the way He phones: it's not annoying. It's proof of an incessant Love.

The Wall Street Journal reports consumers use apps for an average of two hours per day. So instead of comparing the amount of time we spend engaged with technology vs. Jesus...

Let's explore how to divinely enhance our relationship with God using technology. Above are a few of our favorite Christian apps. They're listed with intention. Do you hear the sound? May we respond to that heavenly whistle. **e**
